

The Ro Fold

Lay the nappy out in a flat square

Rotate it 45 degrees so a point is facing you

Fold it on the diagonal to make a triangle with the long edge at the top

Fold the top long edge over about 3-4cm

Fold the right and left points of the triangle up, making a wolf's head shape

Fold one layer from the wolf's "nose" away from you, toward the long edge

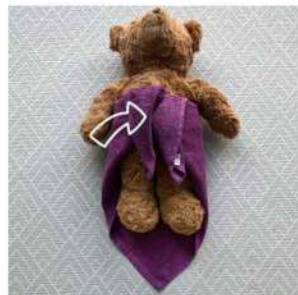

Fold the wolf's "ears" over and down, so it looks more like a dog's head

Place the baby on the nappy

Fold the right wing over the child

Fold the left wing over the child

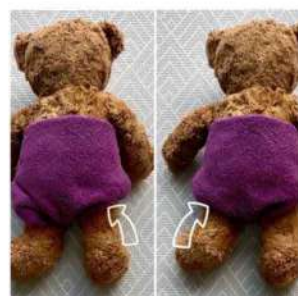

Bring the point up between the legs and then tuck down into the waistband

Secure with a nappy nipper

At the moment the nappy comes low down on the child's legs

Tuck the right leg up, rolling the edge inward and repeat for the left leg

Sit back and admire your work

Before adding a waterproof wrap
